

Innowalk Pro Operator Training

Full Day: 9:30am-3pm

Aim of the session

To train staff to confidently and competently operate the Innowalk Pro in their setting. Training will cover:

- Background - Why Innowalk?
- Safety/Preparation before use
- Adjustments for the user, based on a prescribed settings form
- In and Out - how to safely use the Innowalk Pro in practice

Who is it for?

Staff who will work regularly with the Innowalk Pro users but who will not need to assess or make any changes to prescribed settings. Operators will be able to set up the Innowalk Pro and operate it with users.

Typical Timetable

9:30-11:15 - Innowalk Pro adjustments training
(group of max. 6 people with no users present). **1hr 45min**

11:30-12:15 - User 1 (with their support staff) **45min**

12:45-13:30 - User 2 (with their support staff) **45min**

13:30-14:15 - User 3 (with their support staff) **45min**

14:15-15:00 - User 4 (with their support staff) **45min**

If more staff/users are required, a further day of training will be organised.
